

Rate Card

There are two pricing options available to our uSuite clients:

1. **The Pay As You Go Plan – you only pay for what you use when you use it.**
2. **The Subscription Pricing Plan.**

Pay As You Go Plan Rate Card

Pay As You Go plans are a great way to start using your uSuite products. The entire range of uSuite products can be accessed and set up for free. Once you have created your free account you only need to pay when you actually want to start using your uSuite product.

With these plans each uSuite product has three separate pricing options. Each option is based on the level of branding that is applied to that particular uSuite product. See overleaf for more details.

Subscription Plans

Subscription plans are perfect for when you have a better idea of what your ongoing usage will be.

You can choose to go onto a Subscription Plan at any time and you can upgrade plans whenever you like. Subscription Plans bundle uSuite products together so that you can maximise your value from uSuite.

Please contact us for more information on the uSuite Subscription Plan options.

Certified uSuite Solution Providers

All uSuite products are designed so you can easily set up and use them yourself.

But there may be times when you need to work directly with a marketing professional. That's why uSuite has a range of Certified uSuite Solution Providers that have been trained in getting the maximum value from uSuite and can offer specific skills to meet your requirements. For example, they can assist in designing professional email templates, developing a customer acquisition programme or drafting customer satisfaction surveys.

For a complete list of Certified uSuite Solutions Providers please visit www.usuite.com/partners or contact us.

Pay As You Go Plan Rate Card

Option 1 uses standard uSuite graphics. Your surveys, for example, will have uSuite graphics on them, your uSuite Refer forms will appear with uSuite graphics and your uSuite Event forms will appear with uSuite branding. This option is the easiest to use and is also the most cost effective. Use Option 1 when you don't mind that the products appear as uSuite products.

Option 2 allows you to upload graphics onto uSuite products. Your surveys, for example, can have your corporate logo at the top, however the underlying style is still uSuite. Option 2 is also easy to use and cost effective. Use Option 2 when you want your uSuite product to appear with your logo but you don't require the product to match your corporate brand exactly.

Option 3 allows you to apply your corporate style to your uSuite product so that it matches your brand. You can add your own HTML, graphics, Flash or Java and the finished uSuite product matches your brand or website exactly. Use Option 3 when you wish to maintain your brand integrity and when you want your customers to think your uSuite product is one of your own.
