

**uSuite Survey is a professional online software tool that allows you to build, brand and deploy online surveys without downloading or installing any software.**

Online surveys are an extremely effective way to extract and analyse valuable data from your staff, clients and suppliers. What's more, they are quicker, less expensive and more practical than conventional mailed surveys. uSuite Survey allows you to survey smarter by offering features such as advanced reporting and conditional branching. Creating and deploying your survey is easy thanks to intuitive wizards and a comprehensive Help menu.

## Use online surveys for:
