

uSuite Event is a professional online software tool that simplifies the processes around event marketing and registration.

Events are playing a growing role in integrated marketing by driving demand, reinforcing brand image, and enhancing goodwill with prospects and customers. Yet planning even small events can be a time consuming and complicated process. Using uSuite Event to manage your event can cut registration administration time by up to 75% while creating a professional and streamlined experience for your attendees.

Use uSuite Event online, without downloading or installing any software. uSuite Event allows you to create an event registration form quickly and easily, using the intuitive wizard and comprehensive Help menu. You can view registrations and responses in real time, and update registrant details and their status. What's more, uSuite Event automates communications to registrants, such as confirmations and reminders.

Use uSuite Event for:

- Training sessions
- Seminars
- Award ceremonies
- Staff functions
- Product launches
- Promotions

With uSuite Event, marketing events and managing registration is painless:

- 1. Create your uSuite Event using your web browser**
- 2. Email your uSuite Event to your contacts or add it to your website so that users can register**
- 3. View and manage registrations in real time.**

Getting started is simple:

- 1. Visit <http://www.usuite.com>**
- 2. Create a free account**
- 3. Create your event, preview it and pay only when you use it.**
